EXPERIENCE

Aviyel — *Technical Writer*

MARCH 2022 - PRESENT

- Created technical how-to documentations on integration and usage of three open source enterprise projects so far:: Docz, Slicknode and Chatwoot.
- Hosted technical webinars on the usage of Chatwoot, Docz and many other projects on the platform.
- Tested and reviewed open source code contributions relating to JavaScript and React.js

100ms— *React Developer*

NOVEMBER 2021- APRIL 2022

- Specialized in building video/audio conferencing web applications using the 100ms SDKs, REST APIs, JavaScript and React.
- Created technical how-to documentations centered around the company's SDK, to help new developers implement various features.

Andela— *Mobile Web Specialist*

JUNE 2020 - DECEMBER 2020

- Specialised in building PWAs with offline capabilities, leading to a 10 times faster user experience.
- Won the "Skill Badge" award, for excelling in the Mobile Web Specialist IQ test with a 96% score on three assessments.
- Learned and worked mainly with Angular and TypeScript.

Hotels.ng— *Frontend Developer Intern*

JUNE 2020 - AUGUST 2020

- I worked in different teams where we created Hotel websites using technologies like JavaScript, React.js, Git, HTML and CSS.
- Assisted in reviewing pull requests on some of these projects and communicating about challenges and tasks.
- Worked on contact, pages of some hotel websites, and utilized pair programming in a scrum development style.

EDUCATION

AltSchool Africa— *Software Engineering*

APRIL 2022 - FEBRUARY 2023

University of Benin— *BSc. Industrial Chemistry*

JANUARY 2017 - JULY 2021
